Call to Order

Public Comment: Five Minute Limit per Speaker
This comment period is for the public to address topics on today’s agenda.

Minutes
Discuss and decide on meeting minutes.

Discuss a Vacancy Form requesting a Criminal Prosecutor III for the Linn County Attorney’s Office

Discuss a proposed amendment to the Linn County Multi-Jurisdictional Hazard Mitigation Plan 2019-2024

Public hearing & first consideration for rezoning case JR19-0001, request to rezone property located at 4202 Drew Lane NENE 33-85-08, from CNR (Critical Natural Resource) district AG (Agricultural) district, approximately .28 acres, Gary and Carol Dundee, property owners; Ryan Dundee, petitioners.

Discuss proposed Rural Land Use Map Amendment case JA19-0002, request to change map designation for property located at 4202 Drew Lane NE NE 33-85-08 from CRNA (Critical Natural Resource Area) to RRD3 (Rural Residential 3-Acre Area), approximately .28 acres of a 1.15 acre property, Gary and Carol Dundee, property owners; Ryan Dundee, applicant.

Sign purchase agreement for real property located at 1002 and 1006 2nd Street SW, Cedar Rapids, Iowa

Approve Cigarette Permit for the Troy Store, 5913 Main St., Troy Mills, retroactive to June 26, 2019

Discuss FY20 Delta Dental Renewal

Discuss minor changes to Personnel Policies (PM-003 Workplace Harassment Policy, PM-007 Employee Recognition Policy, PM-010 Fitness Reimbursement Policy, and PM-013 Training and Tuition Reimbursement Policy)

Canvass of votes—Alburnett Community School District

Public Comment: Five Minute Limit per Speaker
This is an opportunity for the public to address the board on any subject pertaining to board business.

Payroll Authorizations
Discuss and decide on Employment Change Roster (payroll authorizations).
Claims
Discuss and decide on claims.

Correspondence

Appointments
Affirm and approve the appointments of Susan Cooper, James Porter, and Daryl McCall to six-year terms as members of the Springville Library Board of Trustees.

Adjournment

For questions about meeting accessibility or to request accommodations to attend or to participate in a meeting due to a disability, please contact the Board of Supervisors office at 319-892-5000 or at bd-supervisors@linncounty.org.
VACANCY FORM

SELECT ONE:
☐ NEW POSITION

SELECT ONE:
☐ NEW JOB CLASSIFICATION

JOB TITLE: Criminal Prosecutor III

DEPARTMENT: Linn County Attorney's Office

VACANCY DATE: ASAP

REASON TO ADD NEW POSITION (if applicable):
☐ BUDGET OFFER
☐ GRANT FUNDING
☐ OTHER: Please see attached documentation

☐ REPLACEMENT
REPLACES: ____________________________

☐ EXISTING JOB CLASSIFICATION

SHIFT/HOURS: Mon-Fri 8:00 - 5:00

NUMBER OF POSITIONS: 1

NEW POSITION FUNDING SOURCE(S):
Increase allowable FY20 budget to allow additional attorney.
No FY 20 funding has been budgeted.

POST TO INSIDE: ☐ YES ☐ NO

ADVERTISE: ☐ YES ☐ NO

IF NO, GIVE EXPLANATION (i.e. not filling due to operational needs):

POSITION TYPE:
☒ FULL-TIME ☐ PART-TIME # of hours/week ☐ TEMPORARY/SEASONAL

☐ ON-CALL/SUBSTITUTE ☐ GRANT-FUNDED

☐ BARGAINING UNIT: ☐ Clerical ☐ Maintenance ☐ Para Professional ☐ Professional
☒ Attorneys ☐ Conservation ☐ Sergeants ☐ PPME

☐ NON-BARGAINING UNIT (Management and Confidential Employees)

Notice of Funds Availability
Hazard Mitigation Grant Program

March 26, 2019

The State of Iowa will receive FEMA disaster funding under the Hazard Mitigation Grant Program (HMGP) as part of Presidential Disaster Declaration DR-4421-IA (declared March 23, 2019) as a result of severe storms and flooding that have occurred in our State this spring.

Project Types
The State is accepting notices of interest (NOIs) for those eligible hazard mitigation project types that will reduce or eliminate losses from future natural disasters, including but not limited to:

- Priority #1 (category A) Property acquisition/elevation, electric utility hardening, detention basins, warning sirens. (See attached addendum for additional project types.)
- Priority #2 (category B) Elevate/protect wastewater lift stations, backup generators. (See attached addendum for additional project types.)
- Priority #3 (category C) Tornado safe rooms, small flood barriers. (See attached addendum for additional project types.)

Eligible Applicant
Potentially eligible applicants include:

- State agencies and local governments
- Federally-recognized Indian tribal governments, including State-recognized Indian tribes, and authorized tribal organizations
- Private nonprofit (PNP) organizations or institutions that operate a PNP facility as defined in the 44 Code of Federal Regulations, Section 206.221(e).

The Disaster Mitigation Act of 2000 (DMA 2000) requires a FEMA approved local hazard mitigation plan prior to FEMA awarding HMGP project funds. Funding will be limited to sub-applicants with an approved local hazard mitigation plan at time of award.

Applicants with proposed projects located in a FEMA-identified special flood hazard area (SFHA) are eligible for funding only if the jurisdiction in which the project is located is participating in the National Flood Insurance Program (NFIP). There is no NFIP participation requirement for projects located outside of the SFHA.

Cost Share:
This is a cost share grant program which means that awarded grants will be funded as follows:

- Federal (FEMA) share of total eligible costs – 75% maximum
- Non-federal share of total eligible costs – 25%
  - State of Iowa – 10% (typical )
  - Local – 15%

Iowa Code 455B.262A [effective 6-30-2011]; State participation in funding financial assistance (10 percent State cost share) for a flood related disaster requires participation in the NFIP for a city or county with an effective FEMA published flood insurance map that identifies a SFHA. To determine NFIP participation please visit: http://www.fema.gov/cis/IA.html.
Notice of Interest (NOI) & Application Process

Applicants must complete the appropriate (project specific) NOI form located in the EMGrantsPro grants management system. The NOI forms can be found using the following link: http://www.iowahomelandsecurity.org/grants/HMA.html.

The State hazard mitigation staff will review NOIs using basic eligibility criteria for HMGP projects outlined in 44 CFR 206.434 (c), project type and level of interest in relation to acceptance of a greater local cost share. Invitations to complete a full HMGP project application will be sent to qualifying sub-applicants for both new NOIs and previously submitted NOIs where limited funding was available. Invitation letters will identify a State mitigation project officer who will work directly with the applicant. This project officer will contact the applicant to discuss the proposed project, the application requirements, and be available to provide technical assistance during the application development process if needed.

For additional information or questions, feel free to contact a lead State mitigation project officer:

- Dan Schmitz – Deputy State Hazard Mitigation Officer
dan.schmitz@iowa.gov or 515-725-9369
- Mathew Noble – Planning
mathew.noble@iowa.gov or 515-725-9404
- Jonathan Pogones – Acquisition/Relocation
jonathan.pogones@iowa.gov or 515-725-9384
- Terry Brown – Acquisition/Relocation
tte.brown@iowa.gov or 515-725-9371
- Leon Freeman – Electric Utilities/Safe Room
leon.freeman@iowa.gov or 515-725-9378
- Carol Tomb – Infrastructure
carol.tomb@icwa.gov or 515-725-930

We ask that the county emergency management coordinators, councils of government, and planning commissions forward this information to the communities in their service area to achieve the widest distribution possible.

Aimee Bartlett
State Hazard Mitigation Officer
Iowa Department of Homeland Security & Emergency Management
Prioritizing Projects in Iowa for Funding with Hazard Mitigation Assistance
(Non-planning projects)

With limited hazard mitigation funds (HMA) funds and continual need for hazard mitigation projects in the state, the Iowa Department of Homeland Security and Emergency Management (HSEMD) has identified processes and criteria to evaluate hazard mitigation project proposals for funding.

The criteria HSEMD utilizes align with FEMA grant guidance and the recently-adopted Iowa Hazard Mitigation Plan. The steps of the evaluation process and criteria are briefly described here.

Step 1: Meet the basics
First, the applicant must be a participant in the planning process for the FEMA approved local hazard mitigation plan and the project must be identified as a mitigation action within the plan. The applicant must also meet the financial risk assessment and local match requirements.

Step 2: The project fits into which priority category?
Project proposals will be categorized and ranked in accordance with the Iowa Hazard Mitigation Plan (the “State Plan”).

Projects will be placed in one of three categories: A, B, or C. These categories are based on priority mitigation actions established by the State Hazard Mitigation Team (see section 5.6 of the State Plan). Over a five-year period, available grant funding will be divided among the project categories with the majority designated for Category A projects. Category B will receive the next portion of funding, followed by Category C. Historically, for example, safe rooms have received six percent of HMA funding and are designated as a Category C project. It is anticipated safe room projects will receive a similar percentage of grant funding over the next five years. There is a possibility additional funds will be made available for category C projects, but the allocation will not exceed the total allotted for projects in Category B.

Category A Projects include (see the last table in section 5.6 of the State Plan for all mitigation actions with priority A):

- Property acquisition and conversion to green space
- Projects that elevate at least one foot above base flood elevation
- Restoration of floodplain, including oxbows, that reduce peak flow
- Streambank stabilization projects that reduce peak flow
- Channel improvements that reduce peak flow
- Channels, culverts and structures connected together as a system for flood protection
- Farm/rural pond for flood protection
- Detention basin
- Sanitary sewer improvements
- Urban infiltration projects that prevent flooding, including bioswales or infiltration trenches
- Riparian forest buffers done in cities for flood prevention
- Wet detention systems in cities
- Urban wetlands for flood prevention
- Vegetated swales for flood prevention in cities
- Permeable pavement resulting in flood prevention
- Other green infrastructure in accordance with Iowa Storm Water Management Manual design criteria
- Hardening/retrofitting line and constructing design failure structures
- System, series or collection of practices and small projects that together provide flood protection for roads and bridges downstream.
- Bridge retrofit or reconstruction
- Road reconstruction and installation of unconnected culvert(s) that cross under a road (typically rural)
- Signage or educational materials to improve awareness of hazard risks and ways to prevent/reduce impacts (typically limited to 5% of HMA funding)
- Watershed plans and studies of hydrology, study of groundwater issues and study of areas of risk to erosion
- Projects recommended in watershed plans, hydrology studies, and similar documents
- Warning sirens (no more than five percent of HMA funds)
- River/flood gauges and other alert devices installed to provide advance warnings and alerts (limited to five percent of HMA funding)

**Category Priority B projects include** (see the last table in section 5.6 of the State Plan for all mitigation actions with priority B):

- Projects that promote the use of NOAA all-hazards weather radio
- Wetlands, prairie strips, and other vegetated cover outside of cities for flood prevention
- Elevate or protect wastewater lift stations
- Purchase/install backup power generators to ensure essential and emergency services can continue

**Category C projects include** (see the last table in section 5.6 of the State Plan for all mitigation actions with priority C):

- Public safe rooms
- Obtain and distribute copies of ICC/NSSA Standard for the Design and Construction of Storm Shelters and FEMA P-320 - Taking Shelter from the Storm: Building a Safe Room for Your Home or Small Business to cities, architects, and builders
- Small flood-control measures
- Projects that provide model standards and guides, including the Iowa Stormwater Management Manual, to local jurisdictions about construction, design and landscaping measures that direct water away from structures

**Step 3: Rank the projects within each category**

**Step 3 A: Prioritize projects according to criteria in the State Plan**

There are several criteria mentioned in the State Plan (section 4.2.6) upon which to evaluate different projects. These include:

1. Number of repetitive loss and/or severe repetitive properties that can be resolved
2. Number of highly-vulnerable properties that can be protected
3. Places under the most development pressure
4. Preservation of essential services by protecting critical facilities
5. Applicant’s demonstrated commitment to mitigation
6. Quality of the application

Each project will be evaluated and/or scored according to these criteria.
Step 3 B: Prioritize according to criteria stipulated by the specific grant NOFA

Certain competitive grant programs have additional criteria which will be used to supplement the above criteria. For instance, a Notice of Funding Availability may prioritize projects for small, impoverished communities or projects with private partnerships. Iowa HSEMD will make accommodations for these factors when ranking project proposals for specific grant programs.

Step 4: Analyze the benefits and costs and compute a BCR

Once ranked according to above criteria, FEMA’s BCA tool is used to analyze costs and benefits of the top 10-20 projects. The analysis also considers ongoing maintenance costs and accomplishing objectives besides loss avoidance. (Another prioritization factor stated in the State Plan is a criteria to consider measures designed to accomplish multiple objectives, including damage reduction and environmental enhancement.) After an initial benefit to cost ratio (BCR) is calculated with the BCA tool, projects with a BCR of at least .75 can receive additional benefit credit according to how much ecosystem service benefits the project brings. So, for example, for each acre of green open space created by the project, an extra benefit of $8,208 per year is credited to the project in the BCA tool. Riparian areas restored or created reap a benefit credit of $39,535 an acre per year, wetlands $6010 an acre per year, and forest $554 an acre per year. With these additional benefit credits added into the BCA tool, a BCR is recalculated for the project.

Projects with the highest BCRs within the defined category will be first priority for funding.

LINN COUNTY ORDINANCE No. ______________________

AN ORDINANCE AMENDING THE OFFICIAL ZONING MAP OF LINN COUNTY, IOWA BY REZONING AND CHANGING THE DISTRICT CLASSIFICATION OF CERTAIN PROPERTY LOCATED AT 4202 DREW LN, IOWA FROM THE “CNR” CRITICAL NATURAL RESOURCES DISTRICT TO THE “AG” AGRICULTURAL DISTRICT

BE IT ORDAINED by the Board of Supervisors of Linn County, Iowa, as follows:

SECTION 1. ZONING DISTRICT CHANGED. The zoning of property located at 4202 DREW LN, Iowa legally described as:

The south 74 feet of the north 304 feet of the east 165 feet of the NE ¼ NE ¼ Section 33, Township 85 North, Range 8 West of the Fifth principal meridian, Linn County, Iowa.

Is hereby changed from the “CNR” Critical Natural Resources District to the “AG” Agricultural District

SECTION 2. ZONING MAP AMENDED. The Planning and Development Director, or his/her designee, is instructed to modify the Official Zoning Map of Linn County, Iowa to reflect the district classification change described in Section 1.

SECTION 3. REPEALER. All ordinances or parts of ordinances in conflict with this ordinance are repealed.
SECTION 4. SEVERABILITY. If any section, provision or part of this ordinance shall be adjudged invalid or unconstitutional, such adjudication shall not affect the validity of the ordinance as a whole or any section, provision or part thereof not adjudged invalid or unconstitutional.

SECTION 5. SAVING. The Code of Ordinances, Linn County, Iowa, shall remain in full force and effect, save and except as amended by this ordinance.

SECTION 6. EFFECTIVE DATE. This ordinance shall be in effect after its final passage, approval and publication as provided by law.

Public hearing and first consideration on the 1st day of July, 2019.
Second consideration on the 3rd day of July, 2019.
Published in the Gazette on the ______ day of __________, 2019.
