- For at least 90 days following a report of sexual abuse, LCJDC will monitor the conduct or treatment of residents or staff who reported the sexual abuse and of residents who were reported to have suffered sexual abuse to see if there are changes that may suggest possible retaliation by residents or staff. LCJDC will also act promptly to remedy any such retaliation. Items monitored include any resident disciplinary reports, pod, or program changes, or negative performance reviews or reassignments of staff. Such monitoring will go beyond 90 days if the initial monitoring indicates a continuing need.

- A resident may be subject to disciplinary sanctions only pursuant to a formal disciplinary process following an administrative finding that the resident engaged in resident-on-resident sexual abuse or following a criminal finding of guilt for resident-on-resident sexual abuse.
- Any disciplinary sanctions shall be commensurate with the nature and circumstances of the abuse committed, the resident's disciplinary history, and the sanctions imposed for comparable offenses by other residents with similar histories. In the event a disciplinary sanction results in the isolation of a resident, agencies shall not deny the resident daily large-muscle exercise or access to any legally required educational programming or special education services. Residents shall also have access to other programs and work opportunities to the extent possible.

- The disciplinary process shall consider whether a resident's mental disabilities or mental illness contributed to his or her behavior when determining what type of sanction, if any, should be imposed.
- Resident will be disciplined for sexual contact with staff only upon a finding that the staff member did not consent to such contact.
- For the purpose of disciplinary action, a report of sexual abuse made in good faith based upon a reasonable belief that the alleged conduct occurred shall not constitute falsely reporting an incident or lying, even if an investigation does not establish evidence sufficient to substantiate the allegation.
- An agency may, in its discretion, prohibit all sexual activity between residents and may discipline residents for such activity. Such activity will not constitute sexual abuse if it determines that the activity is not coerced.

It should be noted that residents should be held responsible for sexual abuse or sexual harassment. It should also be understood that residents have NO capacity legally to consent to sexual conduct with staff due to their incarceration status. If it is found that a resident has made false allegations against either another resident or staff at the LCJDC, appropriate disciplinary measures will be assessed. LCJDC reserves the right to file charges for making false allegations.

Disciplinary Sanctions for Staff in compliance with §115.376
